THE HOUSE

THE LGCY COLLECTION — hoodie, tee, sweatpants, snapback

LGCY APPAREL was founded in 2025 in Bakersfield, California. The emblem is a clock, and it means what it says — this is a house built for permanence, not for a season.

We make considered essentials in a fixed palette, designed to be worn long after the season that produced them. Nothing is held as stock. Every piece is decorated and finished in California when it is ordered, so there are no markdowns, no clearance rack, and no colorway that exists only because a minimum run required it. For a store, that means product that does not go stale on the shelf and does not get discounted out from under you three months later.

We have sold this line in person at more than thirty events over the last eighteen months, which means every fit, weight and colorway in this book was chosen by people who picked it up, tried it on and bought it. The women's range is cut for women rather than graded down from a unisex block.

THE MARK · THE INSIGNIA

THE MARK is the printed finish — a distinct expression of LGCY, minimal in form, intentional in presence. **THE INSIGNIA** is the embroidered finish — a symbol of identity and belonging, established and refined without being flashy. Where a piece can only be produced one way, that single finish is listed.
